

Sohail & Elizabeth

Hello!

Thank you for taking the time to read our profile and consider us as the possible future family for your baby. We don't know you yet, and we can't comprehend what you're going through right now as you consider choosing the best possible future home and family for your precious baby. We can imagine this is a confusing and difficult time for you while you are trying to figure out the best option for you and your baby. We hope you feel supported and loved no matter what. We admire you so much for considering adoption and are grateful that you are. We are anxious to possibly talk with you and hope we can create a great bond.

We are excited to be parents and feel that adoption has always been our calling. We have always held that in our hearts and knew it was right. We promise to cherish and love your child with our hearts and souls and to provide a safe home and a life with every opportunity possible. Know that we are sending good thoughts to you and your sweet baby throughout your pregnancy journey. We hope your pregnancy is smooth and we are able to support you emotionally through whatever you are feeling. We are grateful for your strength, selflessness, and willingness to go through this process.

About Us

We met on a dating app in 2014 in the summer and immediately fell in love and we have really gotten to grow up together. We did long distance accross the country for a couple of years, but now, we have been married 5 years and have been together a total of 9 years! We are such a great team in this life and have been through a lot of life together and every time we have come out stronger, closer and even hopeful. We have suffered two miscarriages in our marriage and through the losses it simply re-affirmed our hearts calling to adopt. We are looking forward to becoming parents some day!

We are a fun loving, and creative couple that enjoys remodeling homes, going to the beach, going to the Zoo, being active, trying new activities, watching as many sunsets as we can and anything to do with water, we are in! We also love making good food with family and friends and making memories. We are in the home remodel and real estate businesses and we love working together! We get to make our own hours, which allows us the flexibility to see family in and out of state and have time for friends and date nights for ourselves. We are very hardworking but definitely enjoy our downtime being outdoors, spending time with our loved ones, watching the waves, or curling up on the couch to watch a good movie. We value quality time with each other and our loved ones. That is the most important thing in life to us. Quality time, making memories and soaking up the life we are blessed enough to have! We look forward to sharing our life with a little one and get a chance to share more memories with them!

I was born and raised in Virginia and moved to California in 2015! I have two healthy parents that are still married, a sister and brother-in-law and two beautiful nieces. I grew up a happy-go-lucky, but shy child. I loved various sports, hanging out outside with my friends and actually enjoyed hanging out with my family. I met Elizabeth in my last year of college right after I turned 22, and not only did I fall in love with California at the time, but with her I fell madly in love. We have built such a beautiful life together and I cannot wait to have kids with her! I come from a smaller family than hers, but our house was always filled with love, laughter and fun. My cousins, aunts, uncles and family friend parties are some of my best memories from growing up. I always have fond memories of snowboarding, being active, making lots of food with the family, playing games and exploring the world.

I have worked lots of different jobs and after I graduated college, I got into the Engineering field and got to participate in jobs like mechanical engineering, aerospace engineering and quality control engineering. I have always liked working with my hands and my wife and I share the passion of home remodeling and design. So we put our heads together, got licenses, used our backgrounds from school and our work experience and boom created a business. Our home remodeling business is successful, fulfilling and exciting and we LOVE to work together and create together. I am ready for the next step in life and excited to have the opportunity to add to our little family one day and teach them how to be passionate, love who they are, who they are with and be truly confident in life. I am ready to be a Dad!

I was born and raised in Southern California and couldn't be more grateful for that! I come from a family that was at the beach every weekend or in our pool in the backyard as a family.

I have one sister, my Mother is alive and well and unfortunately my Father who passed away in 2018 from cancer. I grew up playing soccer, went to Catholic school most of my life, even through High School and have always enjoyed quality time with my family and friends. Sohail and I met when I was 19 and boy did he make me fall head over heels! He was the perfect addition to my giant family! My Father being 1 of 9 kids means that there are 23 grandkids (myself and sister included) and all of the cousins have kids or are having kids so our family is ever-growing. Lots of cousins, aunts & uncles and kiddos make up my family and I am so grateful to have them all in my life. I have worked a few different jobs in my career and more recently have been focused on the interior design and marketing work in the Construction business Sohail and I own together. I love anything creative, love to design, paint, build, you name it! I am a very passionate person, I have a huge heart and I am quite loyal. I love my family and friends fiercely and have learned to never take advantage of them being alive and well. In all of my working in my life so far, I have always felt that my passion in life and love to give is meant for a child or children if we are lucky. My Mom has asked me throughout my life, "What's your dream job?" and I have always replied: "To be a Mom". That's my dream career and passion in life and I so look forward to that opportunity!

About Our Home

We live in beautiful, sunny Southern California in a lovely community.

It's lush and green, full of families and close to Elizabeth's family and all of our friends. We live in one of the best school districts, and it is a sought-after / safe place to be. We have a lake near us, tons of parks and playgrounds and tons of activities within our radius. We are so grateful for our community and the opportunities for work and kids. We are short drive to the beach, which is a huge plus as well. We have two pets, and they love where we live; there are lots of dogs, young families, and shops galore! Our home is full of natural light, fully remodeled in California modern style, and quite cozy. We love art and have a fun art collection.

Our Families

Sohail's extended family is not as large with there being eight total grandkids in the family, but it allows for the whole family to get together more often and all together. He also has a large portion of family in Iran that he visits with via FaceTime. They are all loving and supportive, and his two first cousins were adopted, which makes this more exciting. Sohail's extended family is made up of Iranian, Pakistani, Bolivian & Caucasian family members.

Elizabeth's extended family is huge as she is one of 24 grandchildren. Most of her extended family lives in CA, and family get-togethers are always so fun. Her family is diverse, loving, and supportive. Her family is made up of Caucasian, Italian, Filipino, African-American, & Mexican family members.

Our hearts go out to you and we are so appreciative that you even read our profile. We pray that you find peace in any decisions you make for you and your child. We hope realize how incredibly strong, brave and loving you are throughout this time. We are here for you as best we can be. If you choose us, we promise to love your child the best way we know how! Through caring, encouragement, support and compassion. We will help them reach their goals, dreams and aspirations. And most importantly, we will teach them how to love, be kind and how much their birthmother loves them so much.

Respectfully,

Sohail & Elizabeth
